Helping you sell more

• 100% Recyclable Plastic

Our Hang Tabs are made of PET, a common category 1 plastic recognised by the recycling sector.

• A Wide Range Of Products

Adhesive hangers that allow you to hang all types of packaging or to strengthen or repair them.

• Custom and Printed Hang Tabs

Custom design and printed hang tabs available. For more information contact us directly.

• Card Hang Tabs

All of our Hang Tabs can be made with card, contact us for more information.

SELECTING THE RIGHT HANG TABS

Hang Tabs provide a proven, practical method for increasing retail sales by displaying your products vertically, where consumers can see them.

When customers see your product, they buy your product.

Hang tabs give your product display flexibility — with a hang tab on your product you can hang it anywhere in the store.

A more visible product improves your brand awareness.

Hang Tabs also allow you to display more products in less space, repair damaged hang holes, and can lower your overall packaging costs.

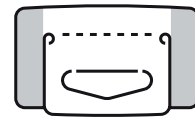

• Hook Hang Tabs

Hook Hang Tabs make selecting the exact product quick and easy. Customers can remove and replace product from any position on the display peg. Hooks fit a variety of peg fixtures and speed up the rotation of stock. Hooks are ideal when displaying more than one size or colour of the same product on the same peg fixture.

• Slot Hang Tags

These are the most versatile of our hang tabs. The delta-shaped hanging area self-centres on any peg fixture. The versatile euro style hole loads easily onto single-or double-wire peg fixtures.

• Fold-up Hang Tabs

Fold-Up Hang Tabs lie flat on the product for shipping, fold up for hanging. Positioned on the back of the product, fold-up hang tabs offer in-store display flexibility without increasing the overall size of the product.

• Round Hole Hang Tabs

Round Hole Hang Tabs are great for a variety of single-peg fixtures and display strips.

• Reinforcer Hang Tabs

Reinforcer Hang Tabs are designed to strengthen the existing in blister cards, folding carton, and paper header cards.

• Stack Pad Hang Tabs

FlexiTAB™ Hang Tabs have a thicker hang hole area and thinner adhesive area. This design gives FlexiTabs the ability to stick well to curved, uneven, or uniquely shaped packages.
